A bowler will earn 5 points for each week they bowl.

A bowler will earn 5 points for each match they win.

A bowler will earn 1 point per spot in the weekly standings. For example, if there are 60 bowlers, the first place bowler earns 60 points, the second place bowler earns 59 points, the third place bowler earns 58 points, etc.

A bowler will earn an additional 5 points if they "cash" for the week.

A bowler must bowl at least 9 of the 13 weeks to be eligible for the season ending tournament on week 14.

Season point standings will be used to determine divisions for the season ending tournament. The more points you have, the more money you will have the chance to win.

Sun Valley Lanes will collect \$10 lineage per person, with a maximum of \$450 lineage each week.

Season point standings will be used to determine divisions for the season ending tournament. The more points you have, the more money you will have the chance to win.
